Please don't respond. This will be treated as a request for intermittent FMLA . I'll be in touch shortly.

Subject: Shift restoration

Dear Drs. Jain and Ford:

Thank you for your well wishes. My family and I continue to mourn my brother's untimely death, he meant a lot to all of us and it will definitely take time. With that said, I may need additional time to readjust, as you know me and my children have been struggling with my current shift. As I am sure you can imagine, things are even more difficult for my family and I now, especially since my children were extremely close to their uncle. If possible, I ask that you and the agency restore me back to my old shift. My son has always needed me to work the prior shift so that I can assist with his medical treatment, but since his ailments have been further aggravated, I need to be there for him now even more.

Please advise,

Melissa Kaye, M.D.
